LED Street Light

Highway, street, park dedicated street light

50,000H

130/140Lm/W

Five years warranty

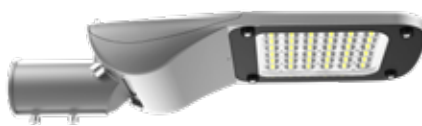

Features

1. The whole lamp of the product reaches IP66 waterproof rating.
2. Light effect is optional, and the installation method is optional.
3. The heat sink and lamp body are integrated, light weight and faster heat dissipation.
4. The lamp life is up to 50,000 hours.
5. Have a patent for appearance and utility model.
6. Product warranty for five years.

Small lamp
40W-60W

medium lamp
80W-100W

large lamp
120W-150W

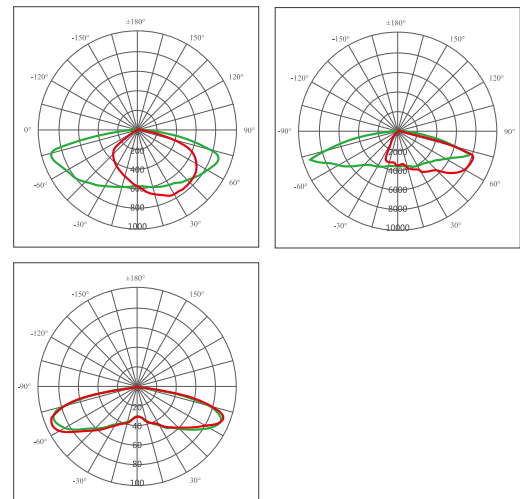

Light body and light weight

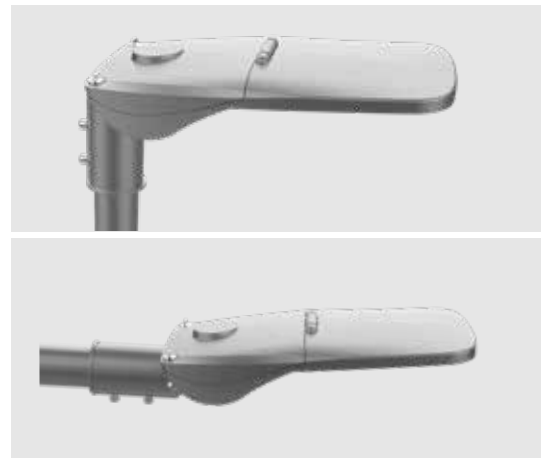

Adopt high-power LED patch (Lumileds/Osram) light source, power supply can match any brand.

Photometric Diagrams

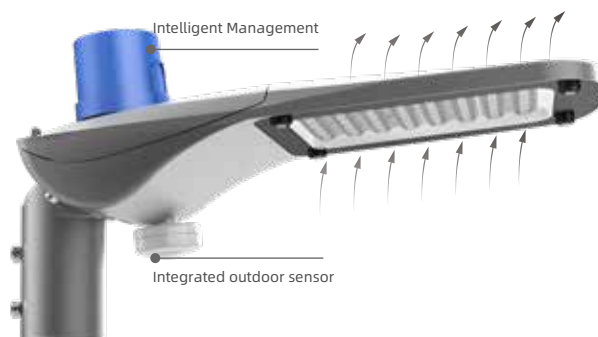

Installation

Vertical/Straight arm mounting

The heat sink is integrated with the lamp housing for faster heat dissipation

The heat sink is integrated with the lamp housing, and the LED is directly connected to the outer casing. The heat dissipation fins and the air convectively dissipate heat through the outer casing, which fully guarantees the service life of the LED street lamp for 50,000 hours.

Whole lamp spray waterproof test

The lamp housing is made of aluminum die-casting, which is designed to effectively dissipate heat, waterproof and dustproof. The surface of the luminaire is UV-resistant and anti-corrosive, and the overall luminaire meets the IP66 standard.

Built-in surge protector for safer use of electricity

Protection against indirect and direct lightning or other transient overvoltage surges.

- Packing including
- 1.1 pcs led street light
 - 2.1 pcs product user manual
